## IT'S WHO WE ARE - SINCE 1931

At Battistoni, we create premium Italian specialty meats with the same recipes, artistry and commitment to processes practiced by the original Battistoni family.

The sons of the company's original founder, Umberto Battistoni, traveled to Italy to learn the mastery of local recipes from specific regions.

Those recipes, passed on now to over three generations are the core of the Battistoni brand.

The careful study and concern for product quality continues throughout our wide range of exceptional products. when you purchase the Battistoni brand you're buying products produced completely in New York State.

For over 80 years the indomitable entrepreneurial spirit of the Battistoni family has continued to define our brand.

*Authentic... any way you slice it.*
